Judge Shri. Vivek Gavhane

Shri Vivek B. Gavhane, a District Judge is presently serving the University as Registrar, with renewed zeal and working towards achieving the laudable mission and vision of MNLU Mumbai. MNLU Mumbai is steered by distinguished judges, senior advocates, seasoned bureaucrats and eminent academicians as members of its governing bodies. Adhering to the motto: Dharma Tatparta, the University is committed to championing the cause of social justice. It practices 'Zero Tolerance' towards any discrimination based on sex, race, creed, class, caste, place of birth, religious belief or professional or political or other opinions.

For a University of international repute, to have research projects that are both innovative and stable, autonomy is necessary at both individual and institutional levels. Institutional autonomy is the power of a university to choose and pursue a direction. Despite being one of the youngest Universities in the country, the Mentorship of Hon'ble Mr. Justice S.A. Bobde, Chancellor and Judge, Supreme Court of India and the able guidance of Hon'ble Mr. Justice A. S. Oka, Judge, High Court of Judicature, Bombay, has brought MNLU Mumbai to the remarkable height of institutional autonomy, which the field of education regards as a major. In order to be at par with international standards and to provide world class intellectual resources to our students, Outcome

Based education System with Project Based learning techniques have been employed in the design of our curriculum. The faculty currently employs 18 plus dedicated full-time academics, half of whom have doctoral degrees in various fields of law & the humanities. They are supported by highly motivated administrative and support staff, and together they serve and prepare our student community for the legal profession and its rigorous demands. At MNLU Mumbai, we aim to produce LL.B. & LLM graduates who are thoroughly equipped with the required knowledge and skills to follow any of the established career paths in law. With this aim in mind, we place greater emphasis on an enquiry-led approach in teaching with a view to improving the research skills of our faculty member. In short, emphasis is placed on legal skills training, which includes written and oral communication, legal research, drafting and mootng. The University currently boasts of 8 Research Centers which furnish space for our academic staff to contribute to legal scholarship, inter alia, by assisting with the development of emerging fields of law. As the law is increasingly becoming multifaceted and in certain areas more global, we not only maintain professional relations with foreign universities like The Berlin School of Economics & Law but ensure that leading international academics visit us regularly for research and teaching purposes. As the University is surges ahead at a lightning pace under the able guidance of Hon'ble Prof. (Dr.) Dilip Ukey (Vice-Chancellor), we look forward to our 2019 intake of students and the contributions they will one day make as MNLU graduates in the national and international legal arena by fusing our high standards of legal education with their professional conduct as they dedicatedly serve the legal profession, ensuring a just society for all.

We are indebted to Hon'ble Professor (late) Dr. Madhava Menon for showing us the way in this endeavor.

- The RFID system, installed in 2020, is designed to streamline and enhance library operations by providing faster, more accurate, and secure services. It significantly improves efficiency, accuracy, and security. By automating routine tasks like checkouts, returns, and renewals, and incorporating theft detection at the gates, the library provides faster and more reliable service to users, while reducing manual labor and minimizing errors. The combination of RFID tags, smart card readers, staff stations, and gate antennas creates a seamless and secure library experience.
- RFID Tags: RFID tags, attached to books, store detailed information about each book, including its unique identification number, allowing the system to track the book efficiently.
- Smart Card Reader: The smart card reader facilitates transactions involving library users. Students or patrons use RFID-based smart cards for transactions like borrowing, returning, or renewing books.
- Staff Station Reader: The staff station reader is used by library staff to perform RFID tagging and circulation operations, ensuring accurate inventory and transaction records.
- Gate Antenna System: The gate antenna system monitors the movement of tagged materials, preventing theft or unauthorized removal of books.
- Handheld Reader: The handheld reader is used for on-the-go scanning of RFID tags, making inventory checks, stock-taking, and book searches more efficient.
